COLOUR DESIGN BY JOTUN

Rich layers. Like the same note played in a different octave, a single colour, thoughtfully deployed at different saturations and levels of intensity, can create worlds of possibility.

The beautiful nuances of lives ...

生命之美，存于微澜之间.....

Not everything is black and white.

Not everything is loud, bold, or big. We often think of our lives as strings of major moments, grand events, important decisions, but the truth is most of life is lived in the gaps in between them. The big things might seem to shape us, but it's often the small ones that have the deepest impact.

The unexpected smile of a stranger on the street. Sunlight through a window casting rainbows on the pavement. A pleasingly tactile pebble found on a beach. These are the threads that make up the tapestry of life, the tiny moments that lift our moods and define our days – sometimes in such subtle ways we might not even notice them.

Colour is no different. We respond to the tones, hues and shades we encounter every day on both a conscious and unconscious level. Colour taps into our emotions, calms us or energises us, makes us think or spurs us to action. In our homes, and on our walls, it's often the nuances that make all the difference.

Jotun's 2025 Colour Card both celebrates and explores those nuances – the small things, subtleties, and in-betweens that make a room, an atmosphere, a home. These 30 colours are designed to inspire and guide you towards the colours that are best suited to the spaces you want to inhabit. Simply browse by colour family, and find the nuances to match the life you want to lead.

回头万里，百舸争流，世界之潮声震耳欲聋，反观生活如细水长流，静水流深。

千万家细小事组成了千万温暖时刻，一微尘里三千界，半刹那间八万春。

色彩亦然。

琉光华影，流转眸间，一户户，一幕幕，虽无言，顷定半壁。

此处心安是吾家，今年，佐敦用30个流行色，于色彩微澜之间，享理想栖居地。

When we choose colours for our home, we are – in part – defining how we want to feel each day. We might want to wake up bright and energised in sunshine yellows, or sink softly into sleep in sea of blue tranquillity. The nuances around us don't just set the scene, they shape our mood.

Mindful living

The moment you step into a space, the sensory environment you encounter defines the experience you will have within it. Earthy neutrals and soft, natural greens soothe and centre, while creating space for bolder accents and statement objects to shine. The background sets the rhythm, the foreground carries the tune.

Nature has a near-infinite library of nuances. By combining strong accent greens and softer, more muted shades in our homes' walls, furniture and decorative objects, we can create environments that replicate the beauty of the natural world. Introduce subtle touches of blue, and evoke the serenity of sky and sea.

The art of making colours

A key part of colour creation is developing the shade to suit Jotun's different products. Once a colour is created, the next step is adapting the colour to the unique product formula. Each Jotun colour recipe is carefully optimised to our global product portfolio.

Our colour tech lab turns initial ideas into refined recipes that create the perfect wall colour for surfaces of every scale.

Our unique recipes ensure stability in multiple lighting conditions, exceptional colour accuracy and excellent hiding power. Please note that gloss and other product finishes might influence a colour's appearance.
